

Technology Training that Works

## IDC TECHNOLOGIES - NEW ZEALAND - 2010 WORKSHOP SCHEDULE

WORKSHOP	CODE	AUCKLAND	CHRISTCHURCH
Practical Process Compressors	CO	11 & 12 Feb	
Practical Medium and High Voltage Testing of Electrical Equipment	TH	22 & 23 Feb	18 & 19 Feb
The Fundamentals of Power Distribution and Power Systems: Hands-On Practical Analysis and Design	FP	25 & 26 Feb	
Practical SCADA Systems for Industry	SX	8 & 9 Mar	
Fundamentals of Pipe Stress Analysis with Introduction to CAESAR II	SA	11 & 12 Mar	
Practical Control Valve Sizing, Selection and Maintenance	VL	1 & 2 Mar	
Practical Fundamentals of OPC	OP	15 & 16 Apr	
Practical Machinery Vibration Analysis and Predictive Maintenance	VB	19 & 20 Apr	
Installing, Programming and Commissioning of Power System Protection Relays and Hardware	RH	15 & 16 Apr	
Troubleshooting Industrial Ethernet and TCP/IP Networks	IT	10 & 11 May	
Gas Turbines: Fundamentals, Maintenance, Inspection and Troubleshooting	GT	20 & 21 May	
Electrical Maintenance for Engineers and Technicians	RC	24 & 25 May	
Practical Pumps and Compressors: Control, Operation, Maintenance and Troubleshooting	CM	8 & 9 Jul	5 & 6 Jul
Practical Power System Protection for Engineers and Technicians	PS	19 & 20 Jul	
Practical Power Cabling and Earthing	OW	20 & 21 Sep	
Practical Radio Telemetry Systems for Industry	RM	23 & 24 Sep	
Practical Project Management for Engineers and Technicians	PM	2 & 3 Dec	
Practical Earthing, Bonding, Lightning & Surge Protection	ER	9 & 10 Dec
